## Solutions for a New Economy

In today's economy everyone is looking to save on monthly bills. Reviewing your monthly phone bills is a great place to start. If you have an old contract that you have had for more than five years then chances are you are paying too much. Let us give you a quote on a new circuit and lines. If you don't save money then at least you know you are still getting a good deal from your provider.

## ***Equipment Leasing made easy.***

We are pleased to announce that we have partnered with Great American Leasing. Great American Leasing specializes in leasing Telecom Equipment. Most successful businesses pay close attention to cash flow forecasts and are careful with their budgets. A Telecom Leasing Solution provides you the needed technology and systems for an affordable monthly amount. You can include software, service, installation and training in your communications solution.

### **GN Netcom Headset Promotion**

GN Netcom is offering one **FREE** Jabra Corded or Wireless Headset for every five headsets you purchase. This promotion is a great way to save on popular GN headsets.

**Hurry - promotion ends December 31, 2008.**

## ***Protect your Telecom Investment With our Maintenance Agreement***

Maintenance Agreements help protect the investment you've made in your communications equipment. If your system crashes you are protected as long as it is from an equipment failure. If a phone breaks you're covered including labor. Give yourself a piece of mind and protect yourself today. Give us a call and we will give you a free estimate.

## This Month's Q&A Technology Tips

**Q: How do I turn off the flashing message light when I have no messages on a Toshiba system**

A: Press Intercom Button #64 the extension number then press the speaker button or hang up the phone and the light should go out.

**Q: How do I turn off the flashing message light when I have no messages on a Comdial system**

A: Press Intercom Button #03 the extension number then press the speaker button or hang up the phone and the light should go out. Or press #7 and the extension number if the first one did not work, this is for station to station messaging.
